CONCLUSION

Each institution of education has a variety of ways or methods to implement educational character where the lesson that contains values, ethics, morals and teachings of religion is a matter main which became the focus. Islamic Boarding School has a pattern of education that is different from the pattern of education in general. In schools there is supervision that strict regarding governance norms or values, especially about the behavior of worship special and norms mu'amalat particular. Guidance and norms learn so quickly clever and quick completion may be said almost did not exist. So, education in Islamic Boarding School the emphasis is not on cognitive aspects, but rather on the affective and psychomotor aspects.

At Islamic Boarding School Jagad ‘Alimussirry own governance orderly students are used as a habituation that is applied in the schedule of the students in the form of a cycle of activities daily. Schedule activities that are repeated every day becomes a means of application of refraction for the students to be supervised by the caretaker cottage. All activities are areas of the board that is different to accompany and supervise the students.
Learning is kept constantly and repeatedly in Islamic Boarding School Jagad ‘Alimussirry which is a form of application of the system in an orderly students as an educational character to facilitate the students to be personally that much better. So that the students can achieve education formal good and can compete with the school public without forgetting the importance of education of religion, ethics, and values well as forming morals for children.

Education characters actually not just dealing with the process of education shoots young who were process period of formation in the school, but also for every individual in the institution of education. For the essentially, to be individuals who are responsible in the society, every individual must develop various kinds of potentials that exist in themselves, especially strengthen the moral will be a guide for practice them in the institution.

The role of institutions of education schools in shaping the character generation successor not be seen next to the eye. Educational boarding schools associated closely with education -based morals that teach participants their students to have a character strong in forming and confirming personal that character.
